From the President’s Desk

Who says you can’t teach old dogs new tricks? Tomorrow EPIC will launch its first live online session of Tuesday Talk speaker Professor Andrew Gelman, Columbia biostatistician and political scientist, as well as frequent New York Times contributor. He’ll be helping us sort through what polls can and cannot tell us.

Click here to read his New York Times post “What Too Close to Call Really Means.”

Several members of the EPIC community are already up-and-running with Adobe Connect, the software we will use for meeting online. Thank you School for Professional Studies and Michael Fleming, Director, Offering Support, for facilitating EPIC’s online presence.

So, if you can’t make it to Faculty House on January 24th - don’t despair. Send us an email and we’ll help you get Adobe Connect onto your computer, tablet or even smartphone. It should only take a few minutes. Remember online participants are not just observers – the system lets you see and be seen, as well as interact with the speaker and participants. For those who able to be at Faculty House, please think about continuing the discussion at the reduced rate luncheon buffet after the talk. It's always an enjoyable and interesting time. Guests are welcome.

Also mark your calendars for next Thursday’s first Graduate Student talk. You can keep track of all these events on EPIC’s nifty new website with its online calendar, where you can also find links to other interesting Columbia activities and resources.

Have a good day!

Jeanne Mager Stellman, President, EPIC
Professor Emerita $ Special Lecturer
Mailman School of Public Health

Tuesday, January 24
"19 Things We Learned from the 2016 Election"

Join us for the first Tuesday Talk of the Spring 2017 semester on January 24. Professor Andrew Gelman (Statistics and Political Science) will review various theories current in political science and political reporting, and where they stand, now that this turbulent political year is drawing to a close.

Please click here to read a related post on Professor Gelman’s blog.

Andrew Gelman is director of the Applied Statistics Center at Columbia University. He has received the Outstanding Statistical Application award from the
American Statistical Association, the award for best article published in the American Political Science Review, and the Council of Presidents of Statistical Societies award for outstanding contributions by a person under the age of 40. His books include Bayesian Data Analysis (with John Carlin, Hal Stern, David Dunson, Aki Vehtari, and Don Rubin), Teaching Statistics: A Bag of Tricks (with Deb Nolan), Data Analysis Using Regression and Multilevel/Hierarchical Models (with Jennifer Hill), Red State, Blue State, Rich State, Poor State: Why Americans Vote the Way They Do (with David Park, Boris Shor, and Jeronimo Cortina), and A Quantitative Tour of the Social Sciences (co-edited with Jeronimo Cortina).

Alternate Tuesday Talks address topics across the academic spectrum as well as issues of particular importance to the retired academic community. Attendees can continue their discussions in the Faculty Club, at a special EPIC reduced rate.

### Thursday, February 2

"Geology, History, and Native Americans in Sarah Orne Jewett's Fiction"

**Vesna Kuiken**, Ph.D., Department of English and Comparative Literature kicks off the Spring 2017 First Thursdays Graduate Student Talk series on February 2.

First Thursday Graduate Student Talks are scheduled on the first Thursday of each month during the academic year. They provide advanced Ph.D. candidates and recent graduates an opportunity to make a generalist presentation on their research to a cross-disciplinary audience ready to listen carefully and ask good questions. EPIC members help give the Ph.D. students a useful learning experience and at the same time learn about something that may be well beyond their own scholarly interests.

12:15-2:00 p.m.
Ward H. Dennis room
602 Lewisohn Hall
Complimentary lunch provided
Guests welcome.

Office of Work/Life Spring Workshops

Columbia’s Office of Work/Life has announced its Spring 2017 workshop schedule, which includes sessions that may be of interest to retirees. Registration is requested. Please visit the Work/Life website to register and find additional details.

Tuesday, April 25, 12:00-1:30

Establishing and Retaining Legal Control Over Important Life Decisions

Do you wonder if you should have a living will? Have you thought about creating a trust for your children? If one of your older loved ones were ill, would you know his or her treatment preferences? Does your family know your wishes if you were ever unable to advocate for yourself legally or medically?

These important questions can have significant impact on the lives of you and your family. The best ways to make sure that your wishes (and your loved ones’ wishes) are followed are through heart-to-heart conversations and having the appropriate legal documents in order.

Following this seminar, participants will be better able to:
• Understand the legal tools available
• Discuss these legal matters with their loved ones
• Access information on relevant local and state laws

Location: Columbia University, Morningside Campus, Low Library, Trustees Room 212
Presenter: Facilitator from Humana/HRI (Columbia University’s Employee Assistance Program)
